

CONECTA CON FUNAX

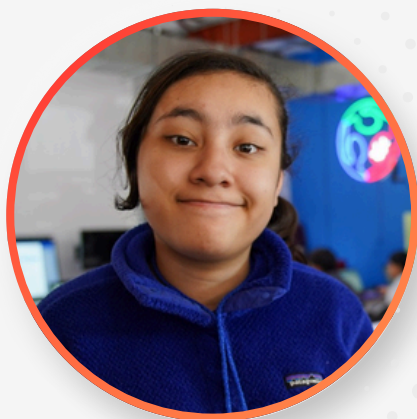

CELEBRATION OF THE INTERNATIONAL DAY OF WOMEN AND GIRLS IN SCIENCE!

To commemorate the **international day of women and girls in science**, we organized an event in which 8 outstanding women in **STEAM areas** shared their experience and motivated the participants to continue exploring their potential in science and technology.

The meeting was attended by beneficiaries of **Fab Lab Móvil**, **Microsoft TEALS Program**, as well as students from **UACJ**, **Tec de Monterrey** and **Colegio Juan Jacobo Rousseau**.

In addition, we visited the Family Development Center of **Fundación Gazpro A. C.** and participated in the Third Meeting of **La Rodadora**, where we shared our passion for science and technology. We thank our partners for making us part of this great day!

Alexa Juárez
Beneficiary of Fab Lab Edu

"I loved a lot to learn about all **3D printers and modeling**. When I grow up I want to be a film maker so I can design and use the tools seen here. Thanks to attending Fab Lab Edu, I **made 2 new friends**, Axel and Fany. I have TDH, sometimes I get distracted and sometimes I concentrate. I had fun coming here.

As part of our integration activities, our staff participated in an exciting rally inspired by **Women in Science**, organized by our colleague Esmeralda to **encourage learning and collaboration**.

We attended the **COBACH Teachers Academy** in Chihuahua, where we talked with teachers who are part of our **Microsoft TEALS program**, shared achievements and planned the semester's activities.
