

CONECTA CON FUNAX

WE MOVED TO A NEW OFFICE!

Now you can find us in office M105 in Technology HUB (Av. López Mateos 924).

We look forward to seeing you!

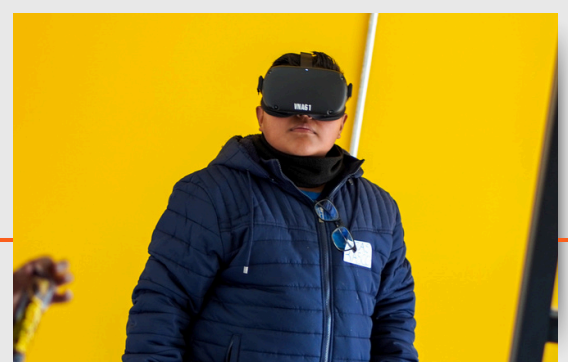

WE SIGNED AN AGREEMENT WITH THE UNIVERSIDAD TECNOLÓGICA DE PAQUIMÉ.

This agreement aims to welcome students to our digital fabrication laboratory, Fab Lab Juárez, where they will be able to carry out their **professional internships** and develop key skills for their future. We thank the Universidad Tecnológica de Paquimé for this new alliance.

We updated the image of Fab Lab Móvil and returned to schools! Fab Lab Mobile is made possible thanks to the support of **United Way Chihuahua**, with investments from **Aptiv** and the **U.S. Consulate General in Ciudad Juárez**.

FAB LAB MOBILE

FAB LAB EDU

We resumed Fab Lab Edu, a program in which we welcome teenagers **at risk of dropping out of school** in our facilities to strengthen their STEM learning through technology, hands-on activities, and teamwork projects.

We attended Pioneers 21 "Innovation Awards" where the outstanding careers of **Dr. Christina Paz, Julio Chiu, and Alejandra de la Vega** were recognized. We extend our sincere congratulations and appreciation for their invaluable contribution to the development of our region. Congratulations on this well-deserved recognition!

DAMARIS ASCARATE

Microsoft TEALS Program Beneficiary

"What I liked most about TEALS is how easy it is to use. It also helped me realize that **I really like programming**. With the knowledge the program has given me, I have been able to create games. I am going to look for a career that is related to this field."
