

CONECTA CON FUNAX

WE CONTINUE TO PROMOTE TECHNOLOGY EDUCATION IN CIUDAD JUÁREZ!

We had the honor of welcoming **Francisco Hugo Gutiérrez, Secretary of Education and Sports for the State of Chihuahua**, to consolidate **efforts that promote learning in STEAM areas**. Our goal is to bring innovative **tools that unleash creativity and talent** to more children and young people in our state.

We participated in the **CSO Meeting organized by FECHAC**, a space for **learning, collaboration, and inspiration** to **strengthen the work** of civil society organizations.

Thank you, **FECHAC**, for motivating us to continue taking action!

Through our **Fab Lab Edu** program, we visited **CASEF Sur Oriente** to bring technological tools to young people who dream big.

This is possible thanks to the **Municipal Government of Ciudad Juárez, FECHAC, and the Rosario Campos de Fernández Foundation**.

We gave two **career talks** to students at **COBACH Campus 7** in Ciudad Juárez, who are part of the **Microsoft TEALS** program.

Through these sessions, **we shared experiences, tools, and opportunities** that can boost their **professional development** and spark their **curiosity** about the world of innovation.

This is possible thanks to **FECHAC, United Way Chihuahua, and Microsoft**.

We affirm the alliance between our **PYMAIS** program and **Canaco Ciudad Juárez** to promote **businesses in Juárez**, with **100% scholarships** for chamber members.

Continuing with the drive to promote training for SMEs.

Victoria García
Social service provider at Fab Lab Juárez

“My social service at **Fab Lab Juárez** helped me **acquire knowledge** and **strengthen design skills** in a **STEM** environment, thanks to the support of my colleagues. These lessons **will be key to my professional development.**”
